Принадлежность контейнеров по префиксу

Как определить морскую линию по номеру контейнера? Сделать это достаточно просто, зная, что у контейнера первые четыре буквы в номере (префикс) определяют контейнеровладельца. Каждому собственнику контейнера присваивается уникальный 4-х буквенный код (BIC-code, по другому – префикс), которым маркируются все контейнеры данного контейнеровладельца.

Однако следует помнить, что судоходная линия, кроме собственных контейнеров, может брать в аренду контейнеры других владельцев. В этом случае перевозчика вычислить довольно сложно, т.к. требуется дополнительная информация об арендодателе контейнера.

Ниже приведены некоторые префиксы контейнеров
